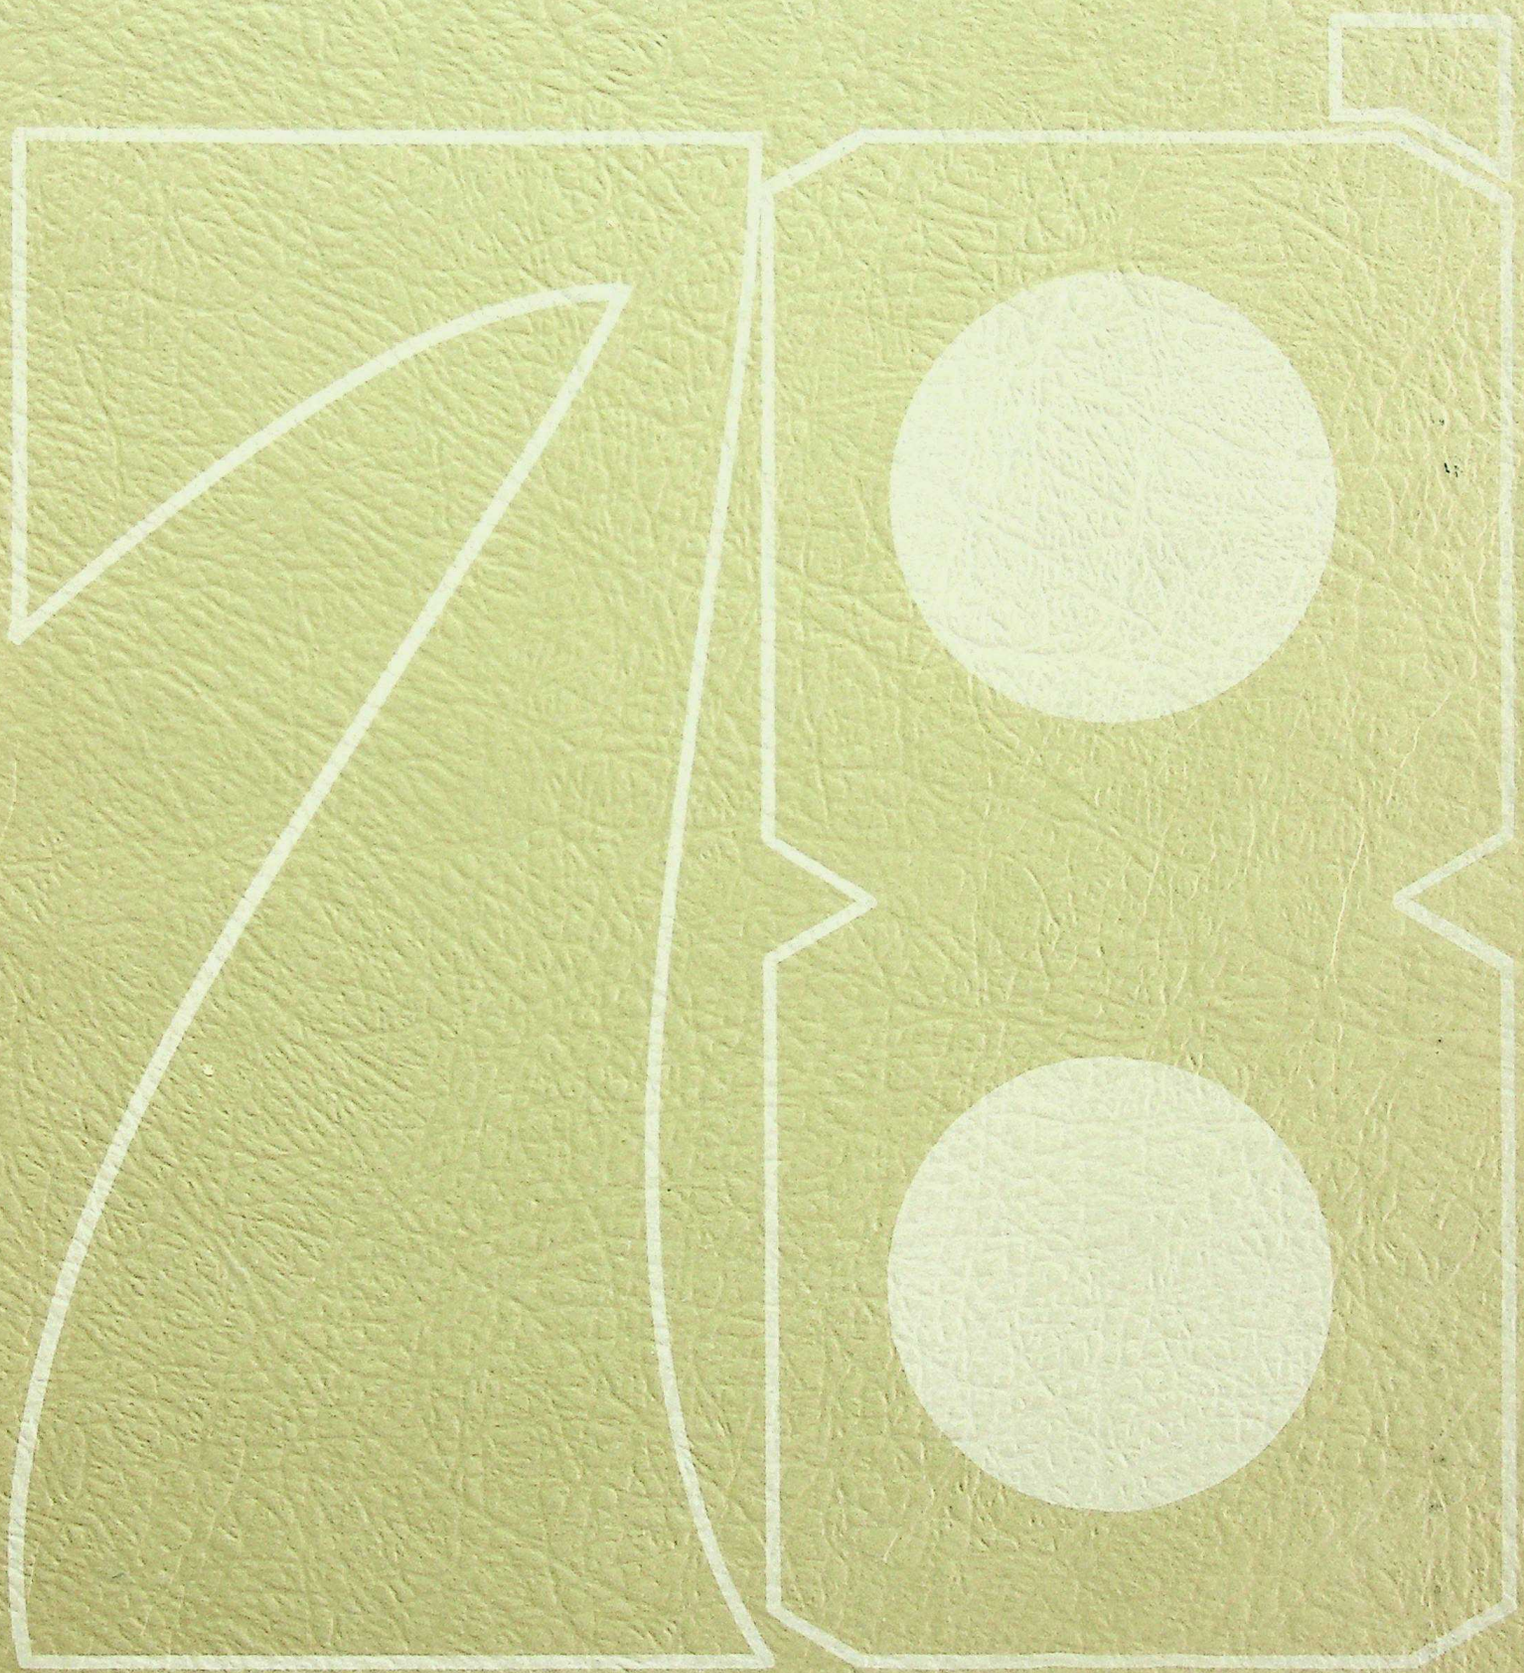
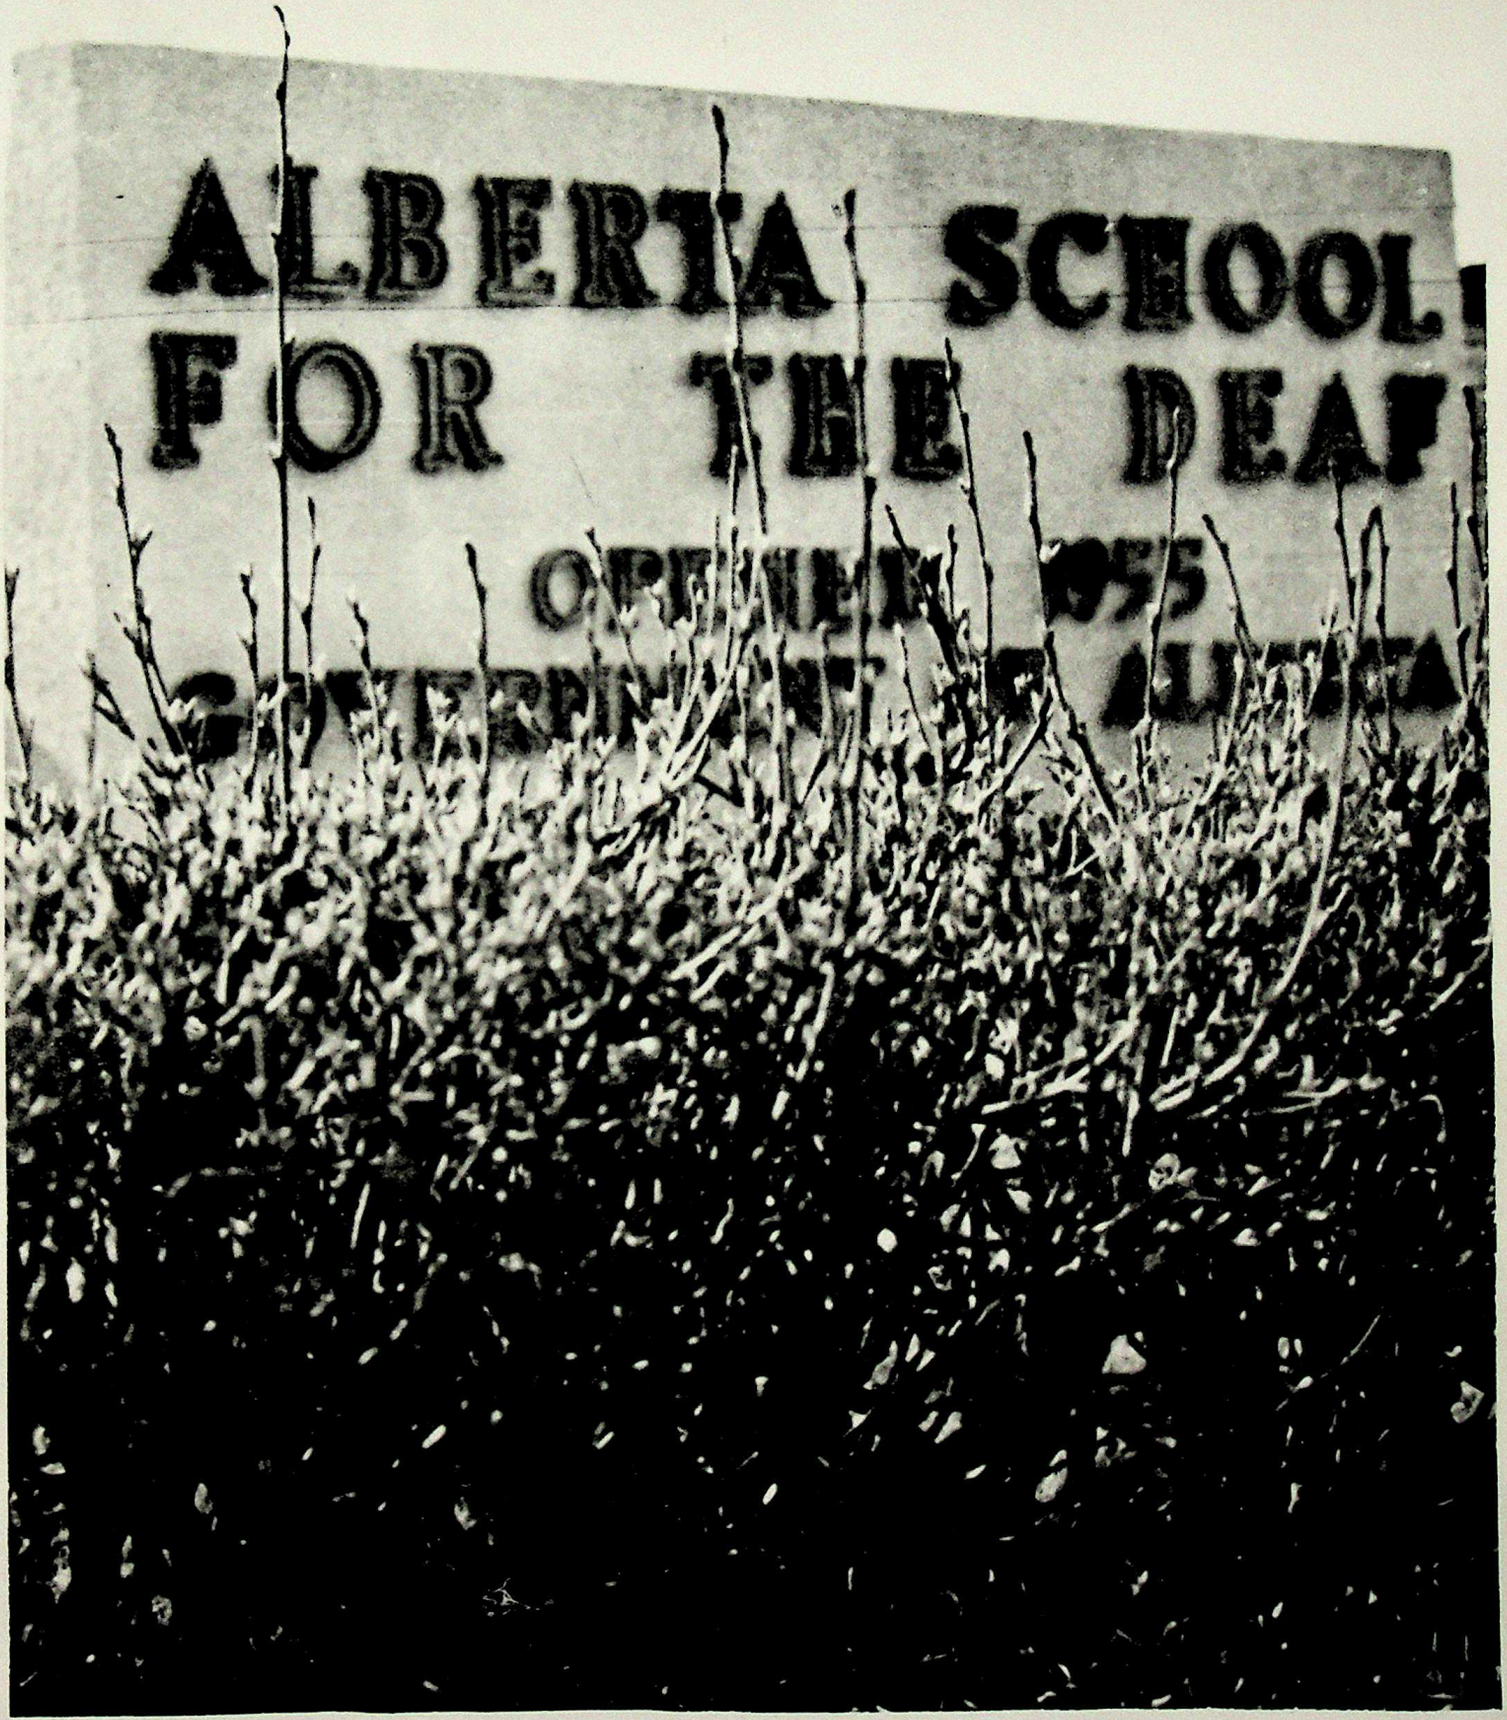
THE GOPHER OF 78





ALBERTA SCHOOL
FOR THE DEAF

Dedication

We, the yearbook staff, congratulate and dedicate this book to the honor of Mrs. Whitfield, who has worked as Assistant Dean of Residence for 18 years. We have noticed that she is very busy throughout the school year because, when the children ask to go home, she gladly calls their parents to find out whether they may go home or not. With the parents' permission, she orders transportation for them. The children enjoy talking to her as much as she does to them. She loves all the children and treats them well. She is a kind lady. We hope that she continues to work here.

Operation Spring Break
for the Yearbook 1977-1978
by the O.S.B. President,
Patrica Shores.

Operation Spring Break started as an idea of consolidating many mini organizations to one large group. It's purpose was to campaigns, making trawel arrangements and a chance to visit new places, to be involved with more students and learn how to co-operate. Co-operation is the most vital position in life. It became a part of our Social Studies program and Mrs. LeBlanc and Mr. King were out advisors.

To raise finds planned, we did have newspaper & bottle drives, selling nuts, and t.v. raffle tickets, and had a flea market. We are greatful to the staff, parents and others who helped us during our fund raising.

The news on bottle drive was hard work sometimes. It was very cold and we had to walk through deep snow to get bottles and newspapers. We were freguently frozen stiff and sometimes it was difficult to communicate as our fingers seemed to have been " placed in a deep freeze ".

We reached our target and on March 23, we excitedly boarded the plane for our trips to a famous place, FLORIDA. It was incredible to be on that plane trip - a good result of our success The flight was most enjoyable, for many of us had neverbefore been on a plane.

Tampa was the first Florida city, we saw and we browsed around happily. Our hotel, RAMADA INN, greeted us by the letters on the board outside " Welcome, Alberta School for the Deaf." That sign was really too much for us! New sights flickered at our eyes, each day. The Floridans recognized us as strangers by our interest in everything around us. We went from Tampa to Orlando where we stayed for seven days. We travelled around sightseeing the places of interst and every night we had time to swim and sunbathe. The main attractions which lured us mostly were

1) *NASA Space Centre - We toured the museum, the blasting site, the factory which manufactures rockets and many buildings work astronauts, engineers and scientists work.*
2) *Disney World - a Magic Kingdom is a happy place where the young at heart of all ages can laugh and play and learn together. Colorful buildings and gayest moods could be seen all ove. Mickey Mouse is the famous creature, our thing of Disney World Space Mountain, a cousin of the Rollercoasters, was popular and a big thrill to ride on.*
3) *Cypress Gardens - The Aquamainds brag about the youthful spirit of Florida as they skim ove. the water. Spectular water ski show was presented plus a glory of beautiful gardens which inspired us, the Canadians.*
4) *St. Augustine School for the Deaf and Blind - This school is enormous and has about 800 scholars. Mr. White, the vice president of the school, was our wonderful guide. He showed us most of the buildings making us envious when we heard social room had a bowling gallery and swimming pool. The beautiful Cypress trees provide shade for lazy students to learn on and study their work. There were some other attractions such as Wet & Wild, Alligator Farm, Old Fort, Old Jail, Museums and we even visited MacDonald's.*

On our arrival home, we were deeply tanned and more experienced after our unique trip to Florida.

We unexpectantly received, a trophy and a cash prize from the Minister of the Environment for collecting the most newspapers of all the schools in Edmonton.

May our special gratitude go to the Edmontians and Calgarians, who supported us, and especilly most to our two advisors, Mrs. Le Blanc and Mr. King for their time, assistance and all their work.

O.S.B. wishes good luck to the Grads of '78.
